SANDERSON HOME LAUNCHES PORT ISAAC,
A CELEBRATION OF THE GREAT BRITISH COAST,
NEW FOR AUTUMN/WINTER 2018

The British coast is a place of wonder. Iconic and idyllic in equal measure, there's nowhere quite like it. From gentle waves sparkling on a summer's day to sailing boats decorating the widest of seas, here is a place where memories are made and treasured forever.

Celebrating the charm of a perfect day spent with friends and family, paddling in rock pools, drinking in the endless horizon or stacking tide-worn pebbles, Port Isaac from Sanderson Home is a fun-loving collection of wallpaper and fabrics, perfectly representing coastal living.

Rebecca Craig, Sanderson's head of design said, "The Sanderson studio was inspired by beaches and seaside destinations from all around England, creating a captivating collection which is easy to use and that offers outstanding value. Designed to blend seamlessly with the colours used in Sanderson's Potting Room collection, Port Isaac has a relaxed and sophisticated feel."

Hand drawn depictions of wood clad beach huts stand side by side as flocks of coastal birds fly overhead in a cloudless sky, their counterparts choosing to make footprints in the sand. Clusters of seaside pebbles nestle in clear, shallow waters and cheeky lobster and seagull designs add an element of fun.

Finely embroidered harbour inspired geometrics and trailing motifs of coastal plants adorn accurately coloured fabrics, bringing a true seaside feel to this collection of 10 wallpaper designs, six weaves and six prints. Additionally, a semi-plain weave book of 20 colours completes the Port Isaac range.

Bold tones of Marine, Coral and Lichen are layered amongst the restful Driftwood, Blush and Sky blue, carefully translating the unique and special place that is the British coastline into the home.

The launch comprises three books:

Port Isaac Wallpapers, Port Isaac Fabrics and the Herring Weaves book.
